

Simple Steps for Organizing Your Closets

PREP

- Purchase 1 storage bin per closet. (Purchase more if you have a lot that needs packed up)
- Purchase several packs of the same hangers
- Set aside a couple of hours & dive in!

DIVE IN

- Start by taking anything out that no longer fits. Fold it & place in the bin.
- Organize closet by category - keeping all t-shirts together, sweaters, etc.
- Now organize each category by color from lightest to darkest.
- Organize all accessories, shoes, & anything else that will remain in the closet.
- Lastly, clean out a spot in the bottom of the closet to store your bin.

***Reminder: Once a bin is filled, don't forget to label with the sizes that are inside before storing away. Replace with a new bin as soon as possible before you go back to your old cluttered mess!**
